

TC100A comes with Ultra precision sensor and Scientific and portable design.

The device has 3 different color LED alarm indicator which is used for temperature and humidity alarm.

You can save data upto 16,000 groups. The device can be connected to computer via USB cable to generate data report. Also it has 3.7V Built-in rechargeable battery.

FEATURES

- Ultra precision sensor
- Scientific and portable design
- C/F temperature unit conversion button
- Ultra thin design
- LED red temperature alarm
- LED blue humidity alarm

TECHNICAL SPEC

Temperature Range	-30°C ~ +80°C, Accuracy : 1°C
Humidity range	0%~100% RH Accuracy : 0.1% RH
Dew Point Range	-30°C ~ +80°C
Wet Bulb Temperature	0°C ~ +80°C
Temperature Resolution	0.01°C
Humidity Resolution	0.01% RH
Data Transfer	PC program
Memory	16000 groups
Battery	3.7V Built-in rechargeable battery
Operating Temperature	-50°C~50C(-58F~1 22F)
Product size	200 x 40 x 30 mm
Net Weight	126 gm
